Integrated Fork Positioner with separate side shift, type 6IFPF-S
Cap. 2500 - 5000 kg.

Advantages

- Separate side shift
- Side shift function available at maximum opening range
- Precise control of fork movement
- Low noise level
- Good view
- High residual capacity
- Wide opening range
Integrated Fork Positioner with separate side shift, type 6IFPF-S
Cap. 2500 - 5000 kg.

The unit is supplied with a valve adapted to the actual capacity.
Min. working pressure 110 [bar]. Max. working pressure 250 [bar].

**From 1601 [mm] of fork length, section size is increased. The table values \( E_h \), \( E_v \) and \( Q \) are calculated.**
